ERIC: ABSTRACTS

E-Learning Quality: The Concord Model for Learning from a Distance. Tinker, Robert
Describes eight characteristics of the Concord model of online course instruction: Asynchronous collaboration, limited enrollment, expert facilities, trust, clear schedules, excellent materials, good pedagogy.

E-Learning Technology, Content and Services. Henry, Paul
Electronic learning involves a holistic approach independent of courses, technologies, or infrastructures. The approach includes integrated learning paths that vary according to student, content, level of competence.

Creating a Very Large E-Learning Library within a Very Short Timeframe. Edgar, Robert
Provides guidelines to instructional designers and multimedia developers for converting traditional instruction to electronic learning, specifically a Web-based format. Discusses initial planning; screen styles; user navigation.

A Framework for E-Learning. Khan, Badrul H.
Discusses the growing demand for online learning activities; considers the possibilities that the Internet offers for a flexible learning environment; and describes a framework for electronic learning that addresses institutional.

The E-Learning Revolution. Galagan, Patricia A.
Electronic learning has made knowledge accessible to a large number of people and is challenging training's basic tenets. Traditional training will persist, but not as a growth sector.
